

Mustang II Power Rack and Pinion

Input Shaft Spline Count: 36

Input Shaft Outside Diameter: 3/4"

Tie Rod Thread: 9/16" - 18

Pressure Side Fitting: 5/8" - 18 to AN6

Return Side Fitting: 9/16" - 18 to AN6

Street Rod Engineering recommends the following hose kits.

[Power Steering Rubber Hose Kit](#)

[Power Steering Stainless Steel Hose Kit](#)

***Note:** If you are using a GM (Saginaw) power steering pump, you will need to insert a flow valve on the pressure side. Ford R&P's require a lower pressure for optimal performance.
